

## Happy Birthday!

Another year has come and gone  
Look how much you've grown!  
There are so many things  
You can now do on your own.

You can ride your bike  
And tie your shoe laces  
You can read **BIG** books  
And you can make silly faces!

You use good manners,  
You follow directions,  
You care about others,  
You give great hugs of affection!

You are awesome at math,  
You're good at having fun -  
Then putting things away  
When playtime is done.

But party time is here now,  
So let's celebrate!  
You make me so proud,  
I think you're so great!

Happy Birthday to you!  
I really love you!  
May all your birthday wishes  
Come true for you!
