

It's Time to Give Thanks...

*It's time to give thanks
Yes, it's good to give praise
For the family in our life
And the friends in our days*

*It's the family and friends
That make life worthwhile
...People like you
Who always bring me a smile*

*It's those generous smiles
That keep me moving along...
Filling my heart with happiness
And my head with a song*

*It's the song in my head
That always reminds me
How precious life is
And how great it can be*

*How great it can be
Especially when I decide
To be thankful for everything
And let my heart be my guide*

Happy Thanksgiving!
